According to the quota established by Panam Sports, the maximum number of male and female diving competitors will be 70.

Each NOC may enter a maximum of eight divers comprised of men and women if entering teams in synchronized diving. NOCs not entering divers in synchronized diving will be allowed to enter a maximum of six divers.

Athlete Eligibility

Only NOCs recognized by Panam Sports whose swimming National Federations are affiliated with FINA and the UANA, may enter competitors in the Lima 2019 Pan American Games.

To be eligible for participation in the Lima 2019 Pan American Games, a competitor must comply with Panam Sports Regulations, FINA rules and must be entered by his or her NOC.

Divers younger than the age of 14 on December 31st, 2019, will not be permitted to compete at the Lima 2019 Pan American Games. (Eligible divers have been born in 2005 or earlier).

All competitors participating in the Lima 2019 Pan American Games must have a passport from the NOC with which he/she is registered.

A competitor's nationality will be determined according to Panam Sports Regulations, Section IV, Item 3. Athletes must have signed and submitted the Athlete Eligibility Condition Form.

Qualification System

NOCs may only send competitors to the 2019 Pan American Games who have qualified through the system established by UANA and FINA. The objective is to have the top ranked UANA divers within FINA compete at the 2019 Pan American Games. Those divers who have achieved a ranking within FINA may earn a quota position for their federation. In addition, at each of the CONSANAT Championships (Zone 1) and Central American Games (Zone 2), divers from federations competing in such events may earn a quota position for their federations provided that the total number of divers from such Zones do not exceed 20 divers on all boards (including those who are ranked in FINA from such competing federations). Additional divers may qualify at such events but may be subject to Reallocation of Unused Quota Places outlined below.

Each NOC must submit a list with the names of the proposed divers to be registered for the Lima2019 Pan Am Games to UANA no later than April 15th, 2019. The UANA TDC will review the divers to ensure that they are the top ranked UANA divers within FINA or have qualified in accordance with the following events:

Athlete Quota Numbers by Zone (70 Athletes Total)

Zone 1 – minimum of 20 divers, each federation within Zone 1 limited to a maximum of 8 divers; in addition PER will have a maximum of 8 divers as host nation.

Zone 2 – minimum of 20 divers, each federation within Zone 2 limited to a maximum of 8 divers;

Zone 3 – maximum 8 divers

Zone 4 – maximum 8 divers

It is important to note that the quota positions for each of Zones 1 and 2 earned through FINA rankings will have priority and any diver from that zone ranked within FINA will count towards the minimum quota numbers for such Zone at its Zone qualification event.

Event	Date	Qualifiers
Central American Games	July 20-24, 2018	By Quota
CONSANAT Championships	November 7 th – 10 th , 2018	By Quota
2019 CCCAN Diving Championships	TBD, 2019	By Quota

Note: Zone 3 & 4 divers do not have separate qualifiers within their zones. National championships or trials events in Zones 3 & 4 may be used to name divers to already qualified positions.

Confirmation of Quota Places

Following the completion of the quota allocation based on the system described above, UANA will advise Panam Sports and NOCs/NFs the quota places obtained, by April 30th, 2019.

The NOCs/NFs must confirm UANA the use of quota places obtained, no later than May 15th, 2019.

Reallocation of Unused Quota Places

If the number of proposed divers exceeds the quota of 70, UANA will determine the qualified divers for the Lima 2019 Pan American Games according to the following priority ranking system:

- a) Priority one — FINA World Ranking at the end of 2018. FINA World Ranking 2019 may be used to add divers not ranked in 2018.
- b) Priority two — Place finish in 2019 CCCAN Championships, CONSANAT Championships 2018, 2018 Central American Games, Canadian National Championships 2019, USA Pan American Team Trials 2019.
- c) Tiebreaker system — if a tie occurs, the following system will be used to break the tie: most number of top 12 place finishes in FINA events from 2017 to 2019. If there is still a tie, then the next ranking consideration is used: most number of top 12 place finishes in UANA events from 2017 to 2019. If there is still a tie, then the final ranking consideration is used: federations without competitors will be invited first and any further considerations will be determined by any head to head results, as interpreted by the UANA TDC in its sole discretion, specifically including 2019 CCCAN Championships provided all UANA federations in good standing are permitted to attend.

This process will be completed by June 15, 2019.

Athlete Eligibility

Athletes must have signed and submitted the Athlete Eligibility Condition Form.

Qualification System

Qualification period: March 1st, 2018– April 30th, 2019. **

**The following competitions being held outside of the stated qualification date range are also specifically approved for qualification: 2017-Central American Games, Managua, Nicaragua, 2018-UANA Swimming Cup, Coral Springs, Florida.

As Host Country, Peru automatically will qualify 18 male and 18 female competitors.

Each National Olympic Committee (NOC) may use proven swim times attained during the qualification period of those swimmers who have met the qualifying standards established by the Union Americana de Natación (UANA) for Lima 2019 Pan American Games at a competition recognized by the Federation Internationale de Natation (FINA) from the official list of approved qualifying competitions for the 18th FINA World Championships, Gwangju, Korea.

The priority order for qualification and selection into the Pan American Games will be:

1. All athletes who have achieved an “A” time standard (see chart on page 5) will be invited to compete. For any NOC to enter two athletes in an individual event, both athletes from that NOC must have equaled or bettered the “A” time standard in that event.
2. Universality athletes will be invited to compete. The universality rule applies to those NOCs that do not have athletes with either an “A” or “B” qualifying time, or NOCs that have no athletes selected for the LIMA 2019 Pan American Games through the online selection process. These NOCs are entitled to have one male and/or one female athlete entered in the Pan American Games. Universality athletes will be selected separately by gender.

An NOC that has qualified one swimmer with either an ‘A’ or ‘B’ standard time and has been invited to compete, that NOC through the universality system may enter another swimmer of opposite gender through the UANA OME system.

3. Relay-only athletes will be invited to compete. NOCs entering relay teams may enter a maximum of two relay-only athletes per gender, as part of their team. Relay-only athletes will be considered as part of the per-team quota of 18 men and 18 women.
4. Athletes who have achieved a “B” time standard (see chart on page 5) will be invited to compete until the quota of athletes for the LIMA 2019 Pan American Games is met. If more than 26 spaces remain after the addition of ‘A’ qualifiers, ‘B’ standard athletes will be selected by adding the next fastest B standard athlete to each event until less than 26 quota spots remain. Additional ‘B’ athletes will then be added one at a time to individual events based on FINA point rankings until the quota of athletes has been achieved.

If an NOC has an athlete with “B” qualifying standard, but that athlete is not invited to compete, then that NOC may be permitted to enter athletes via the universality rule (step 2, above).

Under the universality rule, each NOC is guaranteed an entry of one male and/or one female athlete, each of whom may enter a maximum of three individual events, without having a qualifying time for any event. Should an NOC not qualify any athletes during the selection process, it must identify which athletes are to be considered for the universality positions within the online meet entry system (OME). An NOC that enters universality athletes at the LIMA 2019 Pan American Games is not eligible to enter mixed gender relays and therefore cannot enter relay-only athletes.

Once a swimmer has qualified in at least one individual event and has been invited to the LIMA 2019 Pan American Games as an “A” or “B” athlete, that athlete may enter and swim other individual events up to a maximum of five individual events, without having a qualifying time in those other events, provided that NOC has an opening in that specific event. The rule of maximum of two entries per event per NOC still applies, and these athletes cannot enter an event that already has one athlete from that NOC in that event (unless both athletes have “A” qualifying times in that event).

These additional events must be entered during the OME process described in this document, and no additional event entries will be allowed after the entry deadline.

Relays

Each NOC may enter one team in each relay event, provided it has at least two athletes with “A” or “B” standards that have been invited to compete in the LIMA 2019 Pan American Games. Each NOC will be allowed a maximum of two relay-only swimmers per gender. All other relay participants must be entered in at least one individual event. Relay-only athletes are only eligible to swim in the relay(s) and will not be permitted to swim in any individual events. A relay only athlete must participate in at least one relay.

Relay-only swimmers entered into the Pan American games must swim either in the heat or final of a relay event. Should a relay-only swimmer not compete, this will lead to the disqualification of the respective team. Further, if a relay-only swimmer does not compete in the heats of a relay in which the NOC fails to qualify for the finals, the relay will be disqualified. If a relay-only swimmer could swim in multiple relays, but does not compete in any for which he/she is eligible, the final relay for which he/she was eligible will be the relay that is disqualified.

If a relay-only swimmer is medically unable to compete, they may be excused from the requirement to participate in a relay. A member of the Panam Sports Medical Commission or their Designee will be present at heats and finals and will be the independent physician empowered to make decisions about relay-only athlete participation.

The composition of a relay team may be changed between the heats and final of an event. An NOC that enters universality athletes at the LIMA 2019 Pan American Games is not eligible to enter mixed gender relays and therefore cannot enter relay-only athletes.

UANA Online Meet Entry System

Swimming entries to the LIMA 2019 Pan American Games will first be processed by UANA through its OME system. UANA will provide each NOC with an OME system username and password and an OME users’ guide (English and Spanish) for the LIMA 2019 Pan American Games. This information will be distributed on January 15th, 2019.

The OME entry system opens at 12 noon (CT) on February 14th, 2019 and closes at 23:59 (CT) on May 16th, 2019.

Confirmation of Quota Places

UANA will notify Panam Sports and all NOCs by June 24th as indicated in the timetable below of athletes who have been selected to compete in the LIMA 2019 Pan American Games.

Athlete Eligibility

Only the NOCs recognized by Panam Sports and their respective National Athletics Federations affiliated to the IAAF /APA, may register competitors in the Lima 2019 Pan American Games.

The NOCs can only enter athletes in the Lima 2019 Pan American Games that have qualified according to the qualification system that has been established by the IAAF and APA.

Male and female athletes that will compete in Marathon and the 50K Race Walking event must be at least 18 years old by the December 31st, 2019.

For the other events, the competitors must be at least 16 years old by the December 31st, 2019.

Qualification System

Each NOC will be able to enter a maximum of two (2) athletes in each individual event under the following conditions:

a) That they have placed first in the following competition and Games:

- South American Games – ODESUR – Cochabamba 2018;
- Central American and Caribbean Games – CACSO – Barranquilla 2018;
- The NACAC Senior (open) Championships – Toronto, 2018.

In the above case, it is not necessary that the athletes meet the minimum qualification mark; the decision to enter or not the athletes in these conditions corresponds to their respective NOC.

b) The Technical Delegate and APA will establish a maximum quota of competitors per individual event, who must have met the minimum qualifying mark listed below. This qualifying mark must have been obtained between January 1st, 2018 and midnight (Peru Time) of June 26th, 2019.

c) At the end of the deadline indicated above, in cases where the number of athletes that have qualified is lower than the established quota per event, the Technical Delegate will invite other athletes until the quota is met, based on the Pan American Area rankings from January 1st thru June 26th, 2019. The TD will then inform the respective NOCs of the athletes that have been invited.

For the 4x100 and 4x400 Relays of both genders, national teams will automatically qualify, based on the following regulation:

The teams should have finished in the top two places in the following Competitions and/or Games:

- South American Games – ODESUR – Cochabamba 2018;
- Central American and Caribbean Games – CACSO – Barranquilla 2018;
- NACAC Senior (Open) Championships – Toronto, 2018.

The Technical Delegate and APA will invite national teams until the quota of 12 teams per relay is completed, based on the Pan American Area rankings from January 1st thru June 26th, 2019 and will inform the corresponding NOCs accordingly.

Each invited NOC may enter a maximum of 2 (two) competitors to participate only in the relay(s). The other four (4) members of each relay team, to complete the six (6) members of the 4x100 and 4x400 male and female relay(s) must be registered in an individual event.

The principles of universality, parity and equity will be observed.

As host country of the 2019 Pan American Games, Peru will automatically qualify one (1) athlete for each event for which it does not have any athlete already qualified.

The minimum qualifying marks are the following:

The fact that an athlete automatically obtains the minimum mark does not qualify him/her for the Lima 2019 Pan American Games. The athlete would only fulfill the mark that will be used as a base to achieve the quota established per event.

For all the results and marks to be validated and accepted they must comply with the following:

- a) The results and marks must be achieved during competitions organized or authorized by the IAAF, its Area Associations (NACAC/Consudatle) or member federations. Therefore, results and marks achieved in university and/or school competitions must be certified by the national federation of the country where the competition was held (See below regulations for the Marathon and Race Walking Events).

- b) The results or marks must be achieved in an official competition held under the current IAAF Rules.
- c) The results or marks achieved in mixed events (please refer to Rule 147 of the IAAF) will only be accepted under the following circumstances: For all field events and running events of 5,000m or more held inside the stadium, the results will be the following:
 - Results or marks achieved in national competitions will be accepted automatically.
 - They will be only accepted with the approval of the Area's Association and if they have been achieved in competitions held under Rule 1.1 (i) and (j) of the IAAF.
 - Results or marks will not be accepted if they have been achieved in competitions held under Rule 1.1 (a) and (h) of the IAAF.
 - Results achieved in competition outside the stadium (marathons and race walking events) will always be accepted, if the circuit or route has been certified by an IAAF Certified Measurer.
- d) No Wind Assisted results or marks will be accepted.
- e) Manually timed results achieved in the following events will not be accepted: 100m, 200m, 400m, 800m, 1,500m, 110m/100 m hurdles, 400m hurdles, and 4 x 100m y 4 x 400m relays.
- f) Field events results achieved in indoor tracks, as well as of 200m races or longer, will be accepted.
- g) No results in 200m races or longer achieved in oversized tracks (larger than 200m) will be accepted.
- h) Results and marks in Race Walking events of 20,000m and 50,000m achieved on the track will be accepted.

Marathons

Only marathons races that comply with the following criteria will be valid and accepted for participation:

- a) The route or circuit should be measured prior to the race by an international road race measurer with an A or B certification from the IAAF/AIMS.
- b) The measurement certification must have been established no more than five years before the race.

Marathons held in competitions organized under Rule 1.1 a), b), c), f) and g) of the IAAF will not be included in the list; however, the results and marks will be valid for achieving the minimum marks for participation.

Race Walking Events

Results and marks achieved in international race walking competitions under Rule 1.1 (a), (b), (c), (d), (l), (f), (g), or (j) of the IAAF will be valid and the minimum marks will be accepted for participation as long as the following conditions and criteria are always observed (when applicable):

- a) The circuit or route must have measured by and international measurer of routes events with an A or B certification approved by the IAAF/AIMS.

- Country ranking is determined by adding up the points of the highest ranked player/team from each country in the Men's singles, Women's singles, Men's Doubles, Women's Doubles, and Mixed Doubles. (a maximum total from the five rankings) using the **February 28 (week #9), 2019 BWF World Ranking**. The higher the number of total points, the higher the country ranking.
- The allocation belongs to the country and not to the athlete individually. Each NOC can develop its own procedure to select its competitor(s) to participate in the Badminton competition. To be entered, each competitor must also be eligible to participate in the **XXVIII Pan Am Games LIMA 2019**.
- Depending on the number of countries that actually enter players in the **XVIII Pan Am Games, BPAC** has the right to adjust the participation levels up (where there are less than forty-four (44) entries per gender in the initial allocation) or Pan Am Games Lima 2019 Qualification system down (where there are more than forty-four (44) entries per gender in the initial allocation) to reach the athlete quota, that is, forty-four (44) men and forty-four (44) women.
- BPAC will inform Panam Sports and National Federations the places assigned to each NOC by **March 4th, 2019**.
- Panam Sports will inform to NOCs the quota places assigned for Badminton Competition.
- The NOCs will confirm to Panam Sports and BPAC the use of the places assigned by March 18th, 2019.

Beginning with the 4th ranked country (three (3) or less entries), each ranked country, in rank order will be allowed to enter one (1) additional man and/or woman until the field is full or all countries have been offered and additional player, whichever comes first. If the field is still not full, then the process will repeat itself until the field is full, with each country limited to four (4) men and four (4) women entries.

This process will be completed by **March 20th, 2019**.

Qualification System

The PABCON Executive Board decided we will proceed as follows:

Each Pabcon member country will choose 2 competitions in which they will take part and ONLY those 2 competitions will be used to qualify for Lima 2019.

Due to the fact that Canada and the USA do not participate in the Central American and Caribbean Games (CAC) and the South American Games (ODESUR), official competitions of the Olympic cycle, they will only have the opportunity to qualify in Pabcon's official competitions. Thus, we will limit all countries to just 2 competitions in order to be fair and give equal opportunities.

May 26 th – June 8 th , 2018	ODESUR Games that will be held in Bolivia	4 countries will qualify

Peru is already qualified in both genders as host country.

Pabcon Female and Male championships are considered 1 event, regardless of the fact that they are held in different dates.

Based on this information, all National Federations MUST INFORM BEFORE SEPTEMBER 1st, 2017 THE 2 COMPETITIONS THEY WILL CHOOSE TO SEEK QUALIFICATION.

Any discrepancy or dispute on the process that we may have throughout said process will be solved by the Executive Board and will be informed on due time.

9. Subject to the above rules, the countries that finish in the top five or six positions **[depending on the event]** in Olympic events at the 2018 Pan American Qualification Regatta will qualify for the 2019 Pan American Games.
10. If the boat of a country that finishes in the top five/ six positions **[depending on the event]** in an Olympic event at the 2018 Pan American Qualification Regatta includes an athlete who has already qualified a boat for his country in another event, that result will be invalid and the qualifying boat will be the next highest positioned boat in that event.
11. Every country that competes at the 2018 Pan American Qualification Regatta and that does not qualify an athlete for the 2019 Pan American Games will be eligible for one wild card place, up to a maximum of 5 places.
12. Wild card places will be determined according to the highest placed finishes of non-qualifying athletes from non-qualifying countries who participate in the 2018 Pan American Qualification Regatta.
13. If any wild card places remain, they will be distributed at the discretion of President of COPAC in coordination with the COPAC based on the results of the 2018 Pan American Qualification Regatta.

Reallocations of Remaining Quotas

- After the adjustments of participation to the number of 16 eligible athletes by each NOC to these Games, the President of COPAC in coordination with the COPAC CSPC will deliver the remaining quotas to the rest of the NOCs according to their performance.

Men Canoe: C2 1000m & C1 1000m rotating until the quotas will be completed.

Men Kayak: K4 500m, K2 1000m, K1 200m and K1 1000m rotating until the quotas will be completed.

If the remaining quotas are an odd number and at the moment of the distribution is a double boat, the quota will be allocated to the following individual boat, in the order of the chart where the principles are established (see chart attached).

If one NOC will not use the offered "remaining quota" the President of COPAC with the assistance of the COPAC Canoe Sprint Committee will decide the new allocation.

When the remaining quotas will be allocated in accordance with the clause "10", it will be kept the minimum number of boats for each event in order to grant the validation in accordance with the Panam Sports rules.

To allocate any "remaining quota" the President must consider the best positioned boat between the not classified national teams in the same event. After finishing the ranking of one category if there would still be "remaining quotas", the President of COPAC with the assistance of the COPAC Canoe Sprint Committee, keeps the right to deliver those quotas to other categories.

Host Country Representation

If the host NOC (Peru) does not directly qualify in **any** events at the qualification regatta, it will be allocated a quota in at least one event provided the host [Peru] participates in the 2018 Pan Am Sprint Qualifier Competition. This quota will be **One** of the 5 Wild Card places that are available to all Federations who do not qualify directly through the competition. [See Point 11 of this document]. The available spaces corresponding to that event would be decreased accordingly for the other participating NOCs.

Athlete Eligibility

Athletes must have signed and submitted the athlete eligibility conditions form.

All athletes that comply with Panam Sports regulations will be able to participate.

All participating athletes should fulfill the minimum age requirement according to the IRF rules.

Qualification System

This qualification system will apply for both the women's and men's tournaments.

As Host Country, Peru will automatically qualify with the maximum quota.

Date	Event	Qualifiers
November 25 th , 2017	Bolivarian Games	2 Countries (1 male y 1 female)
May 26 th – June 8 th , 2018	South American Games (ODESUR)	2 Countries (1 male y 1 female)
August 3 rd , 2018	XXIII Central American and Caribbean Games	2 Countries (1 male y 1 female)

The rest of the countries will qualify in the Pan American Championship, to be held in Holy Week in 2019.

Qualifying Tournaments

In each of these three tournaments the country that finishes first in each event will qualify. For example, an NOC that finishes first in men's singles (accumulated score of singles and doubles) in the Bolivarian Games, will automatically qualify for a spot in the men's singles event at the Lima 2019 Pan American Games.

As Host Country, Peru automatically qualifies for each event. If Peru finishes first in a qualifying tournament, the second-ranked NOC would then qualify. In case that a country has already qualified, the next-ranked NOC would then qualify.

PARC Pan American Championship 2019, April 2019 (site TBD) – This is the last qualifying event; the rest of the places will be allocated and quotas will be assigned to each NOC.

For the last opportunity to qualify, countries should participate in both the women's and men's events and should have participated at least in 2 of the 3 previous Pan American Championships. This championship will also be used as ranking for the Lima 2019 Pan American Games.

Athlete Eligibility

Athletes must have signed and submitted the Athlete Eligibility Condition Form. All participants must be at least 16 years old in 2019.

Qualification System

- Panam Sports approved 256 quota places for Lima 2019.
- Quotas will be awarded at the South American Games in Cochabamba, the Central American and Caribbean Games in Barranquilla, and the Americas Shooting Championship in Guadalajara. These events will be held in 2018.
- Quotas will be awarded according to the competitions program and in sequence.
- An athlete may earn only one quota. If the athlete repeats in another event in a position with quota, this participation quota will pass to the next eligible shooter in that event.
- Athletes that are awarded a quota can participate in other events, as long as their National Federation doesn't exceed the limit of 2 (two) athletes per country. No quota places will be awarded for Mixed Couples events in Air Rifle, Air Pistol and Trap. The Federations must use their individual qualified athletes for Mixed Couples events.
- Quotas should be used on the events for which they were awarded or change it for another event of the same discipline. However, quotas may not be transferred to another discipline such as pistol to rifle. (For example, a federation may reassign a men's skeet quota to women's trap). This protects the discipline's integrity and recognizes that countries may have separate rifle / pistol/ and shotgun federations.
- The host country of the Pan American Games is eligible to earn competition quota in addition to the six (6) designated host country quotas (two per discipline) with the maximum of two athletes per event.
- Unused quotas awarded must be returned to the CAT President to be redistributed as soon as possible but not later than 90 days before the Opening Ceremony of the Games.

Athlete Eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form; athletes should be eligible according to Panam Sports' and the ITTF's eligibility criteria.

Qualification System

A total of forty two places per gender will be identified, as described below:

- A total of thirty six places by gender will be allocated to twelve NOCs that have qualified by team (each NOC should nominate two of its athletes for the singles events and two of its athletes for the doubles events from within the three athletes entered on any qualified team). Teams will qualify first and will consist of three players each. The NOC will be responsible for determining the final composition of the team.

- Six places will be allocated for singles events (by gender) to athletes that have obtained the best results at the qualification tournament for singles events of the Pan American Games. Specific details on this tournament will be informed in due time.

Teams (both genders)

Qualification of NOC teams will be carried out through qualifying events between November 2018 and April 2019. Qualified teams will be identified taking the following into account:

1. Peru (host) will automatically qualify for both team events (men and women) for the Lima 2019 Pan American Games.
2. The six best positioned NOCs (both genders) at the Pan American Championship that will be held in November 2018.
3. The first NOC qualified in the qualification event* of each of the four “sport regions” that has not qualified through the Pan American Championship:

- Caribbean: Caribbean Championships, to be held between 01/DEC/2018 and 30/04/2019 *
- Central America Central American Champs., to be held between 01/DEC/2018 and 30/04/2019 *
- South America South American Champs., to be held between 01/DEC/2018 and 30/04/2019 *
- North America North American Champs., to be held between 01/DEC/2018 and 30/04/2019 *

* In case any of these championships is not held, the place would be given to the best team from each region, as long as said team is among the first 20 teams of the world ranking (considering only the Pan American teams)

4. The first NOC of the world team ranking of May 2019 that has not previously qualified.

Individual Events (both genders)

Date	Event	
From May 3 rd to 6 th , 2018	Senior Pan American Championship 2018 (Lima, Peru)	3 places
From June 5 th to June 7 th , 2018	XI South American Games 2018 (Cochabamba, Bolivia)	1 place
From July 29 th to August 2 nd , 2018	XXIII Central American and Caribbean Sports Games 2018 (Barranquilla, Colombia)	1 place
From May 02 nd to 05 th , 2019	Senior Pan American Championship 2019 (Location not yet defined)	3 places

According to Panam Sport's regulations, the host country (Peru) is automatically qualified; however, all wrestlers in the 18 Olympic weight divisions must participate in both Pan American Senior Championships to be held in 2018 and 2019, to be eligible for the Lima 2019 Pan American Games.

If at the end of the 4 qualifying events, Peru does not qualify any athlete in a weight division, only the two first of the 2019 Senior Pan American Championships will be qualified. Meaning that the last quota place will be given to the host country.

From the second qualifying event, ranking will be determined according to an ascending order for countries that do not yet have it. If necessary, an extra combat will be held to determine the classification spot.

Classification is for the country, not the athlete.

All NOCs that qualify wrestlers in the first three qualification events are required to participate (with the same athlete or a different one) at the 2018 and 2019 Pan American Senior Championships (as the case may be), in the same weight divisions for which they qualified. Otherwise they will lose this entitlement.

Wild Cards

The United World Wrestling (UWW) and the United World Wrestling Americas (UWWA) will award six wild card seats to the NOCs based on the IOC universality principle, taking in consideration the following criteria:

- NOCs that participate in qualification events but have not qualified an athlete.
- Among these NOCs, the athletes with the best results at qualification events.

Confirmation of Quota Places

The UWWA will confirm to the NOCs the first 5 teams that have qualified, including wild card places, before April 10th, 2019 and the last 3 teams before May 20th, 2019.

The first 5 NOCs qualified will confirm to the UWWA the places they will use before April 15th, 2019 and the last 3 teams before May 30th, 2019.

Reallocation of Unused Quota Places

If necessary, the UWWA will reallocate unused places in the corresponding style / weight division to the next highest-ranked NOC at the qualifier tournament where the refused NOC got the quota.

This process will be completed by June 15th, 2019.
